

## **Annual Pesticide Notification 8-30-14**

In compliance with the Natural Resources and Environmental Protection Act, Act 451 of 1994, as amended, and Regulation 637, Calvary Christian Schools has adopted an Integrated Pest Management Program. CCS strives to minimize use of pesticides as much as possible, however, their use is necessary on occasion. You have the right to be informed prior to such application. If an emergency application takes place, you will be informed thereafter. To receive notification, please complete the Pesticide Prior Notification Form available in the school office. If you have questions, please contact Tom Kapanka, 231-865-2141.

## **ANNUAL ASBESTOS NOTIFICATION 9-1-2014**

The regulations of federal law 40 CFR 763.84 as published in the Federal Register, and compliance with the Asbestos Hazard Emergency Response Act (AHERA), require that local educational agencies annually notify various groups, including building occupants or their legal guardians, regarding asbestos containing materials in the school district buildings and plans related thereto. The above are hereby notified that a management plan is available for review in the Calvary Christian Schools main office. This plan contains information on the "designated person", architect's letter, notification process, assurances, and dated copies of the annual notification. This notification is required even if the building is eligible for exclusion because it does not contain asbestos.

**For new buildings, those completed after October 12, 1988 (CCS was completed in 1999); our "asbestos management plan" consists of the documents listed in the preceding paragraph, particularly the architect's exclusion letter. This documentation means that to our knowledge no asbestos-containing building materials were used or specified for use in the construction of this building.**

This notice will be published annually in the Student Handbook and on the school website.

If you have questions about reviewing our management plan please contact:
